Malaysian wheat is likely to improve in the near future. Supplies of home-grown wheat in Italy are becoming scarce and between now and harvest Italy may have to import wheat. Although the Japanese would prevent their buying Australian and Canadian wheat, it would mean purchases of wheat elsewhere which otherwise would have been shipped to the markets of the United Kingdom. It seems reasonable to suppose that at least one wheat harvest in the British millers will have to depend largely on Canada for their supplies of wheat. Belgium is also likely to become a buyer of Manitoba and Australian wheat, as the Netherlands and Argentina have come to depend. The Northwestern Miller,

A trailing form of the thentative *Juniperus scopulorum* found in the Lake Windermere district of British Columbia, Canada. Plants are found in rockeries or covering unsightly banks. Individual plants of this species are small, but the plants are long-bearing berries and male plants producing pollen only. The female plants are especially desirable as they carry a crop of attractive, fleshy green berries throughout the year. These berries take two years to mature. The plants are usually one and two and three-year-old berries are sometimes present on a plant at the same time. The berries of *Juniperus* brought into the house in autumn make very artistic bouquets, and provided care is taken to keep them throughout the winter.

For foundation planting the *Privet* is one of the best plants. It is found very satisfactory. They thrive in sun or shade. Furthermore, they are hardy and drought resistant. Of

The flowers may be single or double, with petals in various positions in the shape of the petals which lend grace, lightness, and charm to them. The colour range is exceedingly wide, including many strains and varieties may be produced that come approximately 10

This combination affords a constant succession of fresh pasture crops. The oats make a quick growth and provide early pasture. Since the pigs do not touch the rye, they will not touch the latter until the oats are fairly well eaten down; then the rye provides late summer and early fall pasture. As rye is still less palatable than rye, the hogs do not touch it until the early summer growth is gone, and then they carry the pigs until freeze-up. One acre of this combination pasture will easily carry 20 growing pigs.

Because the pasture lot must be ploughed and sown, seed costs are high. This treatment costs materially more in controlling parasites, and in maintaining the pigs in a generally thrifty condition.

Excluding the U.S.S.R. winter wheat, acreage in 13 European countries is estimated at 75,123,000 acres, or 12.5 percent of the total compared with 90,357,000 acres sown by the same countries for the 1973 harvest. Efforts will likely be made in many countries to increase the Spring wheat acreage if conditions are favorable but the fall seedling generally produces better yields. Sharp reductions in winter wheat have been expected in the States of some reduction in France, Spain, Rumania, Yugoslavia and the United Kingdom. German official figures show practically no change from last year for winter wheat and winter rye.

Recipes

CHEESE IN THE MENU
At this season of the year busy housewives are checking over their recipes for meat substitutes. The primary purpose of any food which is to be used as an alternative of meat is to supply the necessary protein for the meal. Cheese dishes adequately meet this requirement. In salads, as dessert, cheese may be incorporated into the meal, but its chief use is in the making of delicious and attractive main course dishes—a few of which are suggested here by the Milk Utilization Service, Dominion Department of Agriculture.

CHEESE SOUFFLE
One and one-quarter cups milk, 3/4 cup granulated laplace, 1 teaspoon salt, 4 eggs, 1 1/2 cups grated cheese, 1/2 teaspoon mustard.
Heat milk in double boiler. Add laplace and salt, and cook until clear, stirring occasionally. Add cheese and mustard and stir until blended. Remove from fire. Beat in eggs yolks, one at a time. Fold in stiffly beaten egg whites. Pour into buttered baking dish eight-quarters full. Place dish in pan of hot water. Bake in moderate oven (350 to 375 degrees F.) until firm and lightly browned—about 40 minutes. Serve hot.

VEGETABLES AU GRATIN
Butter a casserole and line with cooked spinach. Add a layer of cooked rice, then a layer of string beans or peas, and cover with slices of tomato or onion. Pour a generous amount of this cheese sauce over vegetables, and bake in a moderate oven about 20 minutes. To make cheese sauce use:
Two tablespoons butter, 2 tablespoons flour, 1 1/2 cups milk, 1/2 cup grated cheese, salt and pepper, pinch of mustard.

Melt butter, blend in flour and add milk gradually. Stir until mixture thickens. Add seasonings and grated cheese. Beat well.

TOMATO AND CHEESE RABBIT
Three tablespoons butter, 3 tablespoons flour, 2 cups grated cheese, 2 cups canned tomatoes, 1 teaspoon Worcestershire sauce, dash of cayenne, salt and pepper.
Cook chopped onion slowly in the butter. Stir in flour. Gradually add tomatoes and seasonings and cook until mixture thickens. Add grated cheese. When cheese is melted serve on toast or crackers. If desired, the tomatoes may be strained or 1 1/2 cups tomato juice may be used.

"Are you a doctor?" asked a young lady, stepping into a drug store.
"Now," replied the youth behind the counter. "I'm just the fizician."

Mount Royal College Celebrates Silver Jubilee

The Board of Governors of Mount Royal College are planning this month to celebrate the 25th anniversary of the founding of the College. The celebration program will begin April 23 with a public gathering in the auditorium of the College, to be followed by a reception in the dining hall.

Among the guests expected to be present are Lieut.-Governor Walsh, Premier, Albert, Chief Justice Harvey, President Wallace of the University of Alberta, Mayor Davison of Calgary, and representatives of the bench and clergy, members of Parliament, heads of various civic and community organizations, school principals and teachers, and representatives of educational organizations and other friends of the College.

In order that former students may have a part in the celebration, a committee of this alumni is arranging for a reunion and social evening on the Friday or Saturday following the public reception. The committee is trying to get in touch with every former Mount Royal College student in order to send them a formal notification and they are asking all former students everywhere to send their names and present addresses to the College in order that they may receive an invitation.

A third evening's entertainment in honor of this anniversary occasion is expected to be held under the direction of the Students' Council of the College to celebrate the 25th anniversary and also the fifth year of affiliation of the College with the University of Alberta, as a Junior College teaching the second year university Arts courses.

EXPORTS TO FRENCH AFRICA
Wheat, flour and farm implements are among the leading Canadian exports to French Africa. The area of French possessions in Africa nearly equals that of the Dominion of Canada. The population is over 20,000,000, of which more than 1,000,000 are of European origin.

Here and There

Barrow, Alta., sets this year's record for the first official report on work on the land according to a message received March 13 by the Agricultural Department of the Canadian Pacific Railway at Winnipeg. The earliest last year was from Tubor, Alta., which has held the record for five years, on March 21.

Alfred S. McKay, recently elected president of the Southern Alberta Pioneer and Old-Timers' Association, is one of the two surviving members of the survey party which charted the route of the Canadian Pacific Railway across prairies and mountains in 1880-1885.

Interviewed at Victoria recently, W. M. Neal, vice-president of western lines, Canadian Pacific Railway, stated that he anticipated one of the biggest travel years in recent Canadian history. There had, he said, a substantial improvement in passenger travel business last year which is expected to continue this year.

Changes in hotel management in western Canada are announced by H. F. Mathews, general manager, Canadian Pacific Hotel system as follows: "T. E. Chester, manager Hotel Vancouver, appointed assistant general manager of the company's hotels in western Canada, succeeding A. E. Robertson, resigned; Colin F. Pratt, manager Palliser Hotel, Calgary, becomes manager of Hotel Vancouver with W. J. Mylett, succeeding F. Pratt as manager of the Palliser."

Vancouver Island, known as the historical cradle of the Pacific Northwest, is to be featured this summer by a special cruise of the Princess Norah, of the Canadian Pacific B.C. service, which will make a complete circuit of the Island, leaving Vancouver at 2 p.m. July 13, for a seven day trip in the paths of the early explorers.

During the winter season just closed, there was witnessed the greatest step forward in ski-ing travel ever recorded. Over 51,000, more than a fifth greater than last year, made journeys over the week-end from Montreal to ski territory in the Laurentians, the mountains of the north of Montreal thoroughly covered by Canadian Pacific Railway. Many of the skiers in the Eastern United States to enjoy the sport.

Nine weeks have been named and arranged for Vancouver's Golden Jubilee celebrations proper this summer but the festivities will cover the whole season and are expected to attract visitors from all over the world. One of the high lights will be the re-enactment of the arrival of the first Canadian Pacific train half a century ago.

Thirteen short European cruises from British ports will be made between May and October by the Canadian Pacific liners Montcalm and Montcalm this year. The Baltic and the Mediterranean will be covered extensively in these voyages.

Dr. A. H. Compton, physics research expert, recently returned from a trip to Honolulu on S. S. Aorangi, after studying activities of the cosmic ray in the southern hemisphere. A specially constructed house on the liner's after-bridge contained the delicate apparatus for the purpose of securing more data on the little-known but ever-present ray during the ship's Antipodean trip.

FLEECE WOOL
Considerable improvement has been effected in Canada in the preparation of fleece wool since 1913, when public attention was first directed to the means of quality improvement and the manner of preparation for market. At present all commercial wool in Canada is sold in the grease, and the fleeces rolled and tied intact as they are shown.

Argentine Building Country Elevators

News from Argentine states that the necessary legislation to construct a system of terminal elevators at a cost of \$65,000,000 has been passed. It has been a slow process getting the laws in shape and through Congress but now the obstacles seem to have been overcome. It is understood that the building of a line of country elevators may follow completion of the terminals.

In the Automotive World

NEW CAR FOR OLD

Being a good hand at carpentering, Hiram Dohner kept his Chevrolet Royal Mail roadster in excellent condition for 23 years and then had a 1936 model presented to him as a sort of reward. Hiram lives in Quentin, a hamlet in the valley of the Susquehanna. When the Chevrolet people set out to find the oldest Chevrolet in point of continuous service in the United States, the roadster of the Pennsylvania carpenter won hands down, with a few marks thrown in for neatness. The Dohners, Hiram and Mary, take care of things, and their family transportation, even with 250,000 miles registered, was as slick and shiny as a two-year-old. Upkeep had cost \$250, including three paintings and a new top. The Dohners were Chevrolet's guests at Detroit, where they were given a 1936 model, a distinguished one, too, for it was the one millionth Chevrolet built in the calendar year 1935.

WITH EYES AGLEAM

The eyes of a mouse, alternately blinking red and green from atop a mighty "tote" pole, will direct tourist traffic through Parry Sound, Ont., this year. Plans for the tote-pole traffic light were explained to the Ontario Good Roads convention by J. M. Daly, Indian agent from Parry Sound. The pole will be a vast affair, facing the highway, and the images carved on it, from top to bottom, will include the moose, a bear, a deer, two geese, a duck, an early Canadian voyageur in a canoe, a tepee, a schoolhouse and a church. The eyes of the moose, co-ordinated with traffic signals, will be the only animated portion.

G.M.'S NEW G.M.

In the appointment of Harry J. Carmichael to be vice-president and general manager of General Motors of Canada, Limited, Ontario children receive a new part-time playmate, says a staff writer in Financial Post. While he was in St. Catharines as president of McKinnon Industries, he could "frequently be seen on a vacant corner lot, with coat off and sleeves rolled up, yelling himself hoarse and having the time of his life playing baseball with a pick-up team, the other members of which were some 30 years his junior." His interest in sports is traceable to his own playing career. He formerly played with St. Catharines baseball, basketball and rugby teams and was also a member of the rowing crew. He regards as one of the highlights of his life the day back in 1924 when the team for which he caught gave the Toronto Oiler a great battle in the final for the Ontario championship.

KAYE DON WITH PONTIAC

They don't come any more inquisitive or observant than Kaye Don. The few motor executives and reporters who were with the famous British race-car and speed-boat driver when he made a one-day visit to Detroit and the Pontiac Motor Company recently, found a different Kaye Don. Just as fastidious and dapper as ever but an energetic business man now. The smiling, dashing Englishman, is managing director of Sole Concessionaires, Ltd., Pontiac automobile distributors for the British Isles and Ireland. He takes of the automobile industry in England, commenting on the interest that is being taken in America over the announcing of new cars and the holding of auto shows in the Fall. England never has known any other time of doing those things. The great show at Olympia in London always comes in October or November. Although 100 per cent of his time is being given to his business, Kaye Don has not lost interest in racing. He'd like to get behind the wheel of racing car or boat again, but that is out of the question until he recovers fully from the back strain suffered in an accident almost two years ago on the Isle of Man.

VACUUM FUEL SAVER

Increased gasoline economy of the new 1936 Oldsmobiles is due, in a large measure, to the incorporation of a new vacuum fuel saver on the distributor which automatically advances the spark to develop the maximum of power and greatest engine efficiency at all speeds. The degree of spark advance over a more effective range is regulated. At the same time, this fuel saver gives freedom from detonation and spark knock.

THE DIONNE SEASON

Ontario Motor League officials estimate that the "Dionne season" in 1936 will bring more motorists than ever to Canada. That is just the League manager's way of predicting an increase of tourist travel, incidentally giving a little credit for the increase to the amazing quintuplet sisters of Callender. There were almost 15,000,000 tourists to Canada from the United States last year, so it is readily seen they can't all get a look at the Quints, even if they so desired. Nevertheless, the traffic in both Ontario and Quebec is definitely affected by the north country attraction. Many come to Ontario for the first time because of the Quints. Others who would rarely remain near the border continue their trip to the North Country. Still others who usually tour in Quebec now come to Ontario for Montreal and return to the States by way of Toronto and Windsor.

Who is the True Friend of The Prairie Farmer?

(Special Parliamentary Correspondence)

OTTAWA, May 31.—Who is the true friend of the prairie farmer? Is it Arthur G. Slaght, K.C., formerly lawyer for Messrs. Solloway-Mills and now wealthy Liberal M.P. for Parry Sound? Or is it Hon. J. G. Gardiner, present Federal Minister of Agriculture? Or is it R. B. Bennett, former Prime Minister of Canada? This is the question which, indirectly, parliamentary debate of the past week has been trying to answer. And it was when Mr. Slaght nominated himself for the post of advocate and chief defender of prairie agriculturists, in attempting to answer it, that proceedings reached the highest pinnacle of spirited storm and contention that they have touched so far this session—or, for that matter, for several sessions.

Actually the subject under discussion has been the government's proposal to disburse \$2,500,000 to western grain pool members to equalize the prices paid for the 1930 crop on the basis of 60 cents per bushel for No. 1 Northern. The debate has been stormy throughout, and Hon. Mr. Gardiner has been disposed to pour oil on the troubled waters. The fire-works came accordingly, when in a grim reminder to the Minister of Agriculture that he could not hope to succeed by high-handed methods in the House of Commons, Mr. Bennett remarked to him that he was not dealing with "poor rustics" in a provincial legislature.

Immediately, Mr. Slaght was on his feet. He was dressed as though waiting for the spotlight, rich plush vest, cutaway coat, resplendent flowing tie, and he thought he saw his opportunity. Protesting Mr. Bennett's remark as an implied slur upon "poor Saskatchewan rustics," he lavished his most effective oratory in their praise.

Then Mr. Bennett replied. He told Mr. Slaght bluntly that there were Saskatchewan rustics who were "poor"—and that they were poor because they paid money to the Solloway-Mills firm which, instead of being used to purchase the stocks which they had ordered, had gone to pay high counsel fees.

Since then Mr. Slaght has not been heard from.

Next in order comes Hon. Mr. Gardiner's claim to rank as the western grain-grower's hero. In this connection, it is necessary to review briefly the manner in which the present legislation has arisen. In 1930 the pool farmers of the West were so worried that the order-in-council for initial payments variously fixed at 60, 55 and 50 cents. When the Grain Board was constituted last August, some 75,000,000 bushels of this grain was still in the hands of the pool, and Section 7P of the legi-

slation provided that the board should take its wheat over upon terms and conditions to be agreed upon. Back in October, the late Conservative government negotiated with the pool representatives the conditions of the transfer. At that time wheat was selling at 93 cents per bushel. There was clearly a profit in it to which the pool members were entitled, and their proposal was to have all 1930 payments equalized on the basis of 50 cents per bushel. In addition, the amount by which the wheat fund was ahead due to coarse grain operations was to be refunded and a grant was to be made to the pools of \$862,487 to help them in operating costs. The whole disbursement reached the sum of \$2,262,000. As the profit in the wheat, at the 93-cent price, approximated this figure, the Conservative government agreed to the arrangement, passed the necessary order-in-council, but was defeated before it could carry it into effect.

The present Liberal government did not thereupon carry out the order-in-council, and now Mr. Gardiner contends, in effect, that it was a "trick agreement." There was no authority in the Grain Board Act for either the payments in respect to coarse grains, or for the \$862,000 contribution to the wheat pools. Consequently, the Liberal minister argues that the Bennett bargain could never have been carried out, that it was made only for election purposes, and that he is the true friend of the western farmer because he has frustrated the present legislation to do at least a portion of what could not be done by the previous ministry's order-in-council.

Finally, there is Mr. Bennett's position in the matter. The arrangement, he contends, was one which, to be justified, should have been carried out speedily, while wheat prices were still sufficiently high to save the national treasury from serious loss. As regards the ability to act upon the order-in-council of October, he points out that ample power exists. Payments that could not be made under the Wheat Board Act, could have been made readily under the peace, order and good government clause of the Relief Act. As evidence that the Liberal government knew very well the powers it had under this act, the Conservative leader cited cases in which they had used them, the notable instance being to extend immigration privileges to the Chinese.

The proof of any pudding, finally, is the eating. The following is what the pool farmers would have secured if the October order-in-council had been implemented by this government:

For equalizing wheat prices	\$6,501,000
For equalizing coarse grain prices	800,658
Contribution to pool expenses	862,487
And the following is what the pool farmers are going to secure as a result of the deal which "Farmers' Friend" Gardiner is giving them:	
For equalizing wheat prices	\$6,501,000
Refund of coarse grain pool profits	350,000

The difference will be noted. Mr. Gardiner is not equalizing the coarse grain prices. And, emphatically, he is giving nothing to the pools. But after all, what does it matter if R. B. Bennett should turn out to be the farmers' friend, since for the present, at least, he is only Opposition Leader.

You Can't Stay Where You Are

You turn through a kodak album and smile at old-style clothes. Skirts cluttering the ankles . . . hats perched high up on hair . . . wasp waists . . . awkward sleeves—odd how taste has changed.

Yet day by day your taste changes in all you wear and do. You don't like the same books, enjoy the same movies, choose the same underwear, prefer the same soap you did a short while ago. You are so used to the better, you wonder why you liked the old. Advertisements make you know the better as soon as it's proved to be better. They tell of good things accepted as good taste in the best homes. The hosiery, glass-curtains, lighting fixtures other moderns use; why their use is preferred. Advertisements influence so many around you, sooner or later you'll feel the change. Even if you never read an advertisement, you'll use in time some of the conveniences which advertisements urge you to use today. Advertisements form a tide of taste that sweeps you forward; you can't stand still. Since you'll enjoy what they advertise anyway, why not begin enjoying now?

BOXING

Although Webb Prizell lost out on points at the boxing tourney held at Edmonton recently, he has been given another chance at the open provincial championship to be held at Cardston April 13 and 14, as in his fight at Edmonton he was pitted against a boxer who weighed out of his class. In the contest Webb had to concede 14 pounds to his opponent, and at that barely lost out. Bill Brooks is travelling to Cardston with Webb and will enter the 127-pound class. Both boys should give a good account of themselves.

**The World of
Fact and Fiction**
By "ART"

WHO has written the best short stories? Many times I have heard the question debated—yet it is a question which will never be answered, for good authors differ so much in style that it is sheer folly to attempt comparison. I have always thought Edgar Allan Poe's "Golden Bug" a wonderful story, though some critics do not approve of its style, for it reaches its action climax (finding of the pirates' treasure) early in the story, then slowly explains the method which led the finder to the spot. Nevertheless, it is a splendid effort and I place it right near the top.

How different in style is that classic by Guy de Maupassant, "The Necklace," which only arrives at its thrilling climax in the last paragraph. I think this is one of the best of all the great French short stories.

Recently I have enjoyed several volumes of short stories by that splendid American author, Bret Harte. In "A Ship of '49," "The Outcasts of Poker Flat" and "A Treasure of the Redwoods" he is at his best as he takes the reader to the gold rush era in California, which he himself witnessed while employed on a San Francisco paper, and in his wanderings through the mining camps up the Sacramento River. These are indeed rare jewels in the short story line.

Then again I have the bizarre, trick-finish yarns of O. Henry—

It's Smooth Going Now

It'll be smoother sailing for June Lang from now on. June worked hard for more than five years playing small parts, but studio executives were not impressed and she was dropped. But so insistent was the demand from fans for her pictures (movie and still) that she was signed up to a new contract and will take leading roles hereafter. June is shown ABOVE in her most recent photo—actually it is her four hundredth.

tales of tragedy and triumph in a great city. "The Ratksheller and the Rose" and "Squaring the Circle" are only two of his stories but they are sufficient to leave the reader with the thought that O. Henry was one of the best short story writers of his time, for his ability to portray human nature was never quite equalled.

Still another form of writing is expressed in the legendary theme of Washington Irving's immortal "Rip Van Winkle," wherein the long sleep of the old Dutchman in the Hudson River hills and his eventual return have made a story which ranks among the classics.

To mark the 100th anniversary of Charles Dickens' "Pickwick Papers," celebrations were held in London recently by the Dickens Fellowship. Festivities included a journey from London to Rochester by stage coach of the quietest whose activities formed the background for "Pickwick Papers," one of Dickens' best books. Imagine the genial Sam Weller in real life, sitting atop the coach, keeping the "outside" passengers in fits of laughter, while within, among the others, sits the more sedate Mr. Pickwick, Sam's employer. It must have been well worth seeing.

Quips and Quirks

In a small church a child was brought forward to be baptized. The young minister, taking the little one in his arms, said: "Beloved hearers, no one can foretell the future of this little child. He may grow up to be a great Labor leader like J. H. Thomas, and it is possible he might become the Prime Minister of England."

Turning to the mother, he inquired: "What is the name of the child?"

"Mary Ann," was the reply.

Drummer: "Why, hello, Rastus, what are you doing away out here in the West?"

Rastus: "I'm in the minor business, boss."

Drummer: "You don't say! What kind of mining—gold mining, silver mining, copper mining?"

Rastus: "Calcuttining."

A Negro was telling his minister that he had "got religion."

"Dat's fine, brothah; but is you sure you is going to lay aside sin?" asked the minister.

"Yessuh. Ah's done it already."

"An' is you gwine to pay up all yoh debts?"

"Wait a minute, Pahnson! You sin' talking religion now—you is talkin' business!"

Ucle Tomay Host
T. N. Wright, veteran Sunday school instructor, of the church of the Nazarene in Rimbe, celebrated his 73rd birthday by being host to his "teen-age class of boys at a dinner party. "Uncle Tomay," as he is affectionately known to children in town, has been a resident of the Rimbe district since 1917.

Special Easter program was presented under the direction of Rev. D. Swarth, pastor of the Church of the Nazarene, by children of the four Rimbe Sunday schools.

"Freedom is not something that can be handed to men as a gift; it is something that can be had only as individuals participate in winning it."—John Dewey.

Chigwell

CHIGWELL—Mrs. Alex Willson returned home from Calgary last Saturday after attending the wedding of her niece. The bride and groom, Mr. and Mrs. Paul Going, returned with her and are making their home in Chigwell for the next few months. On Tuesday evening a number of friends gathered at the home of Mr. and Mrs. Alex Willson to charivari the newlyweds and wish them success and happiness.

Mrs. Morris is still on the sick list—she will have a speedy recovery.

Arthur Willson was fortunate in getting his load of gas from Calgary as far as Lacombe on Saturday in the blitzard.

Mr. and Mrs. Victor Linkquist are able to be out again after having the flu.

Mr. Cochlin was a Lacombe visitor on Friday last.

Mr. and Mrs. Werner Linkquist are living at Chigwell now. Mr. Linkquist is working for Floyd Willson. Chigwell's population is increasing fast.

Mrs. Fife and Elsie were weekend visitors in Edmonton.

Mrs. Black has just returned from spending a few months with her son and parents in Virginia, U.S.A. Mr. Black is expected home from the hospital in about ten days.

Quite a number of people in this district have been sick with the flu—some are recovered and some are still confined to their homes.

Mr. Black is a patient in Lacombe hospital.

Mr. Bert Blair is getting out wood for Omar Norris.

Neoma Reiter spent the week-end at the home of Mr. and Mrs. Arthur Olson of Lakeside.

Those having telephones installed recently were D. Watkins, W. Shanks, J. Peck, I. Landy, R. Winslow, O. Schlines, L. Mulgins, E. Carter and Chester Carter.

Bill Scott received a nasty cut on his arm recently helping Hans Thyr new wood. While his arm is healing he took advantage of the low rates to the coast and left on Saturday to visit his mother and brother of Vancouver.

Mrs. Dave McMillan, from Joffrey, who had a minor operation in the Lacombe hospital, is convalescing at the home of Mrs. Deaper.

Mr. and Mrs. Charles Jones spent Tuesday at the home of Charles' mother, Mrs. Frank Seaville.

Wills and Clifford Clark from C. J. College spent the week-end with their grandmother, Mrs. Randlett.

Don't forget the Satin Glo Sale at Lacombe Furniture Store closes April 18.

Board of Trade

(Continued from Page One)
among the townspeople. When representations were made to the Town Council for a grant to further expansion of new industries in the town, \$2000 was voted for the purpose, but given with the understanding it was for no individual project, but to be used by the Board of Trade as they deemed advisable. Mr. Boyd assured the meeting that as long as he was president none of the money would be distributed without the complete sanction of the membership.

Several letters were read and on motion the Board approved of the annual broadcast from Edmonton and requested the executive to investigate the matter.

Vendor's Store Discussed
A report from the executive gave the information of an interview with Mr. Dinning, Liquor Commissioner, stating the government had no intention of closing the beer distribution stores in Lacombe, and if the town and district supported the placing of a vendor's store in Lacombe, one would be placed here.

The executive wished to secure an expression of opinion of the membership on this question. The subject drew considerable friendly and open discussion. Finally a motion by Rev. R. B. Layton and A. T. Inkship that the Board do not ask for a vendor's store in Lacombe was defeated in a secret ballot by 44 to 16.

A motion was passed that an honorarium of \$25 be given Jesse Fraser as a slight appreciation for his faithful work as secretary, in which was embodied a hearty vote of thanks. Vice-President P. M. Switzer thanked the gathering for his election as vice-president and promised to give his best in the work of the Board. It was unanimously decided to send letters of condolence to Mrs. C. B. Abbott and Mrs. John Crocker in their bereavements and express the loss sustained by the Board.

C. E. Todd was appointed to name his own committee to investigate the Government Housing Scheme and report to the executive. G. M. Laverly asked for the support and attendance of the membership to the evening concert of the Musical Festival in the United Church on Wednesday night.

J. S. McCormick called attention to the sports meet of track and field events and suggested that a committee be appointed to co-operate towards its success.

Morningside

MORNINGSIDE—March meeting of the Good Cheer Club was held at the home of Mrs. Zach, with a splendid attendance. Meeting opened with a popular song and Miss Anne Zach at the piano. The president, Mrs. F. E. Clemens, presided. After all business was transacted, about 20 yards of material was distributed among the members to be made into fancy work for a bazaar which will be held in the fall. Mr. Carr, aluminum ware demonstrator, was present and after a short lecture served a very nice dinner to all present. April meeting will be held at the home of Mrs. P. W. Sutherland.

The pie social and what drive held in the schoolhouse last Friday evening was a real success. Honors at bridge went to Mrs. B. Stephens, first; Mrs. F. K. Henning, second; Glen McGarvey, first; P. W. Sutherland, second.

The many friends of Miss Mariette Michels, a very popular young lady of Red Deer, and well-known in Morningside, having visited here many times, learned with deepest regret that she had passed away in Red Deer Hospital after an attack of appendicitis. Sincere sympathy is extended to Mr. and Mrs. Michels in the death of their only and dearly loved child. The funeral, which was one of the largest ever held in Red Deer, took place on Wednesday from the United Church, Rev. Mr. Smith officiating.

S.C. GROUP No. 1
Lacombe Social Credit Group No. 1 will hold its regular meeting in the Town Hall on April 13 at 8 o'clock sharp. Mr. Bruce MacMillan, M.L.A., will be the speaker. A full attendance is requested.

The Lacombe Furniture Store received this week another large shipment of 1936 Wallpapers. Their stock is now very complete. Adv.
